

Universe

Meeting Space

The cloud is your office

Universe Meeting Space is a virtual meeting room. Here you can meet face-to-face, chat and screen share with anyone anywhere.

External and internal guests can join from a web browser and meet as if they were in the same room.

Highlights

- High quality video calls from any device- Windows, Mac, Android and iOS.
- A single sign-on for everything. No need to switch between different apps.
- Hold meetings in a structured way with features like mute all others, background blur and virtual hand raising.
- Instantly present your screen or file in the meeting room.
- Full telephony features mean you get a phone system with your subscription.
- Switch from a Universe phone call to a video meeting with the touch of a button.

Benefits

Simplify: Collaborate in real-time without switching between different apps. Users can log in easily via a browser wherever they are.

Unite: One convenient solution for all your communications. Remote, mobile and home workers all meet via the cloud with a click of a mouse.

Video, phone, message – all together.

Connect with customers and colleagues from any device.

One touch to join for video and audio.

Reduce costs: Universe Meeting Space helps reduce business travel and office costs. Enjoy one monthly bill for all your collaboration tools. Get rid of the high operating costs of old technology.

Be more efficient: instantly share information with colleagues and customers. Empower your team to connect using the method they prefer.

Why Firstcom?

We work with partners to bring their clients best of breed communications solutions. We constantly strive to innovate, and our goal is to provide simple cloud-based products that help customers be more efficient.
